## Come join us for a guided trail ride with an introduction to endurance riding.

*This will be a hands-on educational experience for those interested in learning more about endurance riding.* You will have the opportunity to learn the basics of endurance riding including following trail markers and see a “dry camp” set up. The guided ride is approximately 2.6 miles, and the terrain is an easy ride across a cow pasture, down an old park road, through some woods, and then circles back to our starting point. For more detail about the route, click [HERE](#). Attendees will learn to “vet in” prior to the start of an endurance ride as well as complete the vet check at the conclusion of the ride, which includes checking their horse’s heartrate with a stethoscope, determining horse’s hydration, lameness issues, etc.

- Any breed of horse or mule is welcome. **There will be a limit of 15 horses and/or mules.**
- Shoes are NOT required (or necessary).
- You may ride in the tack you and your horse are most comfortable in (Western, Endurance, etc.).
- Please leave your dogs at home. If you bring a dog, it **MUST be in your truck or trailer at all times.**
